

**Report to the Dean & Faculty Assembly: Associate of Science, Health Information
Technology**

Matthew D. Mingus
Faculty Assembly Curriculum Committee Chair

The University of New Mexico – Gallup’s AS program in Health Information Technology was recently reviewed at the 19 April 2019 meeting of the Faculty Assembly Curriculum Committee. In a unanimous decision, and after carefully examining the revised material submitted by the Division of Education, Health, and Human Services, **the Committee decided to accept the AS in Health Information Technology program review in its entirety.** The only suggestion offered by the Committee was to follow through on revising the program’s curriculum while converting this AS degree into an AAS (in accordance with the new statewide standards).

This program review included all required materials and made good use of the available data. The Curriculum Committee is confident that this program will continue to benefit and serve students well into our institution’s future.

Matthew D. Mingus
Assistant Professor of History
